Advantages of SecretDoors	18

SecretDoors is the art of premium concealed installation interior doors that embodies the philosophy of sophistication and comfort for modern people.

Realizing that a home is a place where a special atmosphere of warmth and comfort is created, each door is designed with care for your family.

The SecretDoors collection offers not only a modern design with a wide range of finishes, but also practicality, safety and reliability. We choose environmentally friendly natural materials so that you can enjoy a beautiful and safe environment.

SecretDoors are not just a door, but also a part of your family space, creating an atmosphere of harmony and mutual understanding.

SecretDoors are the best concealed doors solution for modern interiors.

DOORS ASSORTMENT

4 types of aluminum door frames:

Standard, Universal,
Premium - outside opening,
Premium - inside opening.

2 types of leafs:

Aluminum - 40, 45 mm,
Honeycomb core leafs - 40, 45 mm.

DESIGN DEPARTMENT

Detailed development of individual projects by the company's design department (hidden doors + wall panels, use of non-standard fittings, furniture design).

DESIGNER'S DOORS

The possibility of producing doors with individual finishes according to standard projects of designers and architects (glass, UV printing, stone veneer, laminate, HPL panels, Smart Glass, etc.)

HIGH-TECH EQUIPMENT

The fleet of modern CNC machines ensures precision cutting, perfect cutting and drilling, which guarantees 100% quality.

WELDED JOINTS

Door leafs with an aluminum frame are assembled using spot welding, which prevents deformation of the leaf.

DOOR LEAF STRAIGHTENER

All door leafs* are equipped with a straightener that allows you to control and adjust the geometry of the leaf.

DOOR** SET

The doors are supplied with adjustable concealed hinges Anselmi (Italy), magnetic locking mechanism AGB (Italy), Q-lon seal (Great Britain) and installation kit.

SOUNDPROOFING DOORS

The possibility of producing doors with increased soundproofing, using modern environmentally friendly materials.

PRE- INSTALLATION

Possibility of delivery of door jambs with spacers within 2 weeks for the first stage of installation (installation of a concealed jamb). The final hanging and adjustment of the leaf is carried out after the complete completion of repair and construction work.

DOORS FROM THE WAREHOUSE

Delivery of concealed doors for finishing from the warehouse within 2-3 days (onStock doors).

DELIVERY BY COMPANY TRANSPORT

Delivery of products by company transport.

CERTIFIED PRODUCTS

All products are certified according to international standards ISO 9001.

NOTES:

*Except for the onstock doors.

**Door set for customize doors.

For onStock doors - hinges SD and a seal (manufactured by Kiaplast).
